Norris Public Power District Power Outages Due to Winter Weather

Beatrice, Nebraska – As of 10:00 a.m., Norris Public Power District has approximately 1,400 customers scattered throughout the five county service area without power due to high winds and heavy wet snow causing power lines to gallop. Crews have been working since early this morning and will continue to work on restoration throughout the day and into the evening.

An up-to-date outage map is available by following a link that is available on the Norris website at www.norrisppd.com. Outage updates are available throughout the restoration process on our Twitter page, NorrisPPD. Tweets are linked to our Facebook page and website.

Norris Public Power District reminds customers to assume that downed power lines are energized and to call Norris at 1-800-858-4707, if they notice a downed power line. Norris Public Power District provides electric service to 18,600 customers in Gage, Jefferson, Lancaster, Saline and Thayer Counties in southeastern Nebraska.
