

## **Electric Vehicle Charging Station Pilot Incentive FAQs**

### **What is the Electric Vehicle Charging Station Pilot Incentive Program?**

Nebraska Public Power District in partnership with its wholesale utility customers has a need to understand the future impact of electric vehicle charging on the electric distribution system. Electrification of the transportation sector is expected to grow and have a substantial impact on the electricity delivery system. By collecting data on individual charging stations, the utilities can better implement strategies to maintain and improve utility infrastructure. In order to collect this information, the utility is offering an incentive to eligible customers with qualifying equipment.

### **How do I get the \$200 EV charging station incentive?**

To receive an incentive, you must install a ChargePoint 240V 32A WIFI connected charging station at your home. The station needs to be activated with the ChargePoint app. An incentive application needs to be completed and submitted to your local utility who will verify that the installation meets the program criteria before issuing any incentive. By signing the application, you agree to release your charging station energy usage data to the utility.

### **Why only ChargePoint?**

ChargePoint is the only manufacturer that has agreed to collect and release usage data to NPPD. This is a pilot program and any future program would not be limited to a specific manufacturer. A different brand would require the manufacturer to collect and release energy data to the utility under like terms of the ChargePoint agreement. No other manufacturer has offered to do that although NPPD is open to offers.

### **Why 240V 32A charging station?**

This is a Level 2 station that provides quicker vehicle charging than the Level 1 equipment that comes with the vehicle. As the range of electric vehicles increase, quicker charging provides greater customer convenience.

### **How much does it cost?**

ChargePoint 32A with plug and 25' charging cable. List price \$749

ChargePoint 32A hardwired and 18' charging cable. List price \$649

The above prices do not include any wiring that may be needed to bring a 40A circuit to the garage. Also, the plug model allows you to take the charging station with you if you move.

### **What are you going to do with my data?**

Your data will be used to understand the impact of charging electric vehicles on the local electric system. This information helps maintain and improve the future reliability of your utility's electric distribution system. It also provides the utility with information that may lead to special rates and benefits to owners of electric vehicles.

### **Are you going to control when I can or can't charge my vehicle?**

No. This program has no control features.

### **How much will this charging station add to my bill?**

The impact of electric vehicle charging on your bill varies with the amount of charging and driving you do. With the energy information that is collected with this program, your local utility will be able to provide you with your cost to charge a vehicle.

### **Do I have to have a permit to add this charging station to my house?**

The charging station itself can be ordered with a plug in cord that plugs in just like an electric dryer or range. You may need to extend a 240V 40A electric circuit to your garage if one does not exist. This wiring would be subject to any local electric codes and permits

## Electric Vehicle Charging Station Pilot Incentive Program

A \$200 incentive for the installation of a residential vehicle charging station is available for a limited time from your local public power utility. This incentive is for a ChargePoint 32 amp WI-FI enabled station. Other stations may be incented but must pass preapproval criteria. Installation location must have internet wireless connectivity to qualify. Customer agrees to allow utility to collect vehicle charging data through on-site WI-FI. The information collected during this pilot project will allow the utility to design potential economic incentive programs for various charging schemes. EnergyWise<sup>SM</sup> programs are only available to customers of Nebraska Public Power District (NPPD) and customers of its wholesale utilities.

1. **Customer Name:** \_\_\_\_\_

Is this vehicle used to commute to work? YES \_\_\_\_\_ NO \_\_\_\_\_ Round Trip miles? \_\_\_\_\_ miles

Do you charge at work? YES \_\_\_\_\_ NO \_\_\_\_\_

4. **I acknowledge that this installation is in compliance with the program guidelines. I agree to the release of information by the provider below and to abide by the terms and conditions of the program.**

I have enrolled in the NPPD/Wholesale Utility ("Offeror") EnergyWise<sup>SM</sup> Electric Vehicle Charging Station Pilot Incentive Program (the "Program") pursuant to receiving a \$200 incentive. I understand that, as a condition to my participation in the Program, I am required to authorize ChargePoint, Inc., to release usage information (the "Usage Information") generated by my ChargePoint Home residential charging station and to assist Offeror with certain data collection tasks that I have authorized Offeror to perform in connection with the Program. I understand that the release of such information may include a release to NPPD of certain personally identifiable information about me, including, but not limited to, location and energy consumption profile. I also understand and agree that ChargePoint is not responsible for, nor has any authority with respect to, Offeror's privacy practices or how Offeror may use any information about me. In consideration for being allowed to participate in the Program, I hereby authorize ChargePoint to release the Usage Information and the personally identifiable information and to assist Offeror with performing the data collection tasks, and hereby forever release and disclaim, on behalf of myself, my heirs and assigns, ChargePoint from any and all claims I may have against it, its employees, officers and directors, arising out of or in connection with such release.

I understand and agree that the Program is being offered solely by the Offeror and not by ChargePoint. I hereby agree that ChargePoint shall have no liability whatsoever from Offeror's failure to deliver any of the benefits offered by Offeror in connection with the Program, and hereby forever release and disclaim, on behalf of myself, my heirs and assigns, ChargePoint from any and all claims I may have against it, its employees, officers and directors arising out of or in connection with Offeror's failure to deliver such benefits.

## TERMS & CONDITIONS

**PROOF OF PURCHASE:** Sales receipt(s) or invoice(s) itemizing the new equipment and indicating the size, type, make, model, and purchase date will be required before final incentive is paid.

**INCENTIVE OFFER:** This incentive program covers equipment during the program year in which it is purchased and installed. Details of this program, including incentive levels, are subject to change without notice. The electric utility reserves the right to limit incentives. Not available for equipment that qualifies under other EnergyWise<sup>SM</sup> incentive programs. All incentives are subject to specific program guidelines and general program guidelines.

**ELIGIBLE EQUIPMENT:** ChargePoint 32 Amp WI-FI enabled charging stations. Any other charging station must be preapproved before purchase. The station's charging data must be accessible via the internet per the manufacturer's protocol. Accessibility must remain available for twelve continuous months from the date of the incentive approval.

**ISSUING INCENTIVES:** Equipment must be purchased, installed, and activated before an incentive is issued. Falsifying any information may lead to cancellation of this and future incentive applications, a claim by the electric utility for the return of any incentive, and/or referral for prosecution. Please allow 45 days for delivery of incentives. Submitting an application with incomplete or missing information may delay processing of the incentive.

**APPROVAL & VERIFICATION:** The electric utility reserves the right to verify sales transactions and projects prior to and after installation.

**TAX LIABILITY:** Neither the electric utility nor Nebraska Public Power District are responsible for any tax liability imposed on the customer as a result of the energy efficiency incentive.

**ENDORSEMENT:** Neither the electric utility nor Nebraska Public Power District endorses any particular manufacturers, products, or system designs in promoting this program. Equivalent products must be pre-approved by the electric utility and Nebraska Public Power District.

**DISPOSAL:** The customer/contractor is responsible for the proper disposal and/or recycling of any waste generated as a result of this project.

**SAFETY & BUILDING CODES:** The customer/contractor agrees that each measure complies with all federal, state, and local safety, building, and environmental codes. All products must be UL-listed and installed per manufacturer's instructions.

**DISCLAIMER OF WARRANTIES:** Neither the electric utility nor Nebraska Public Power District warrant the performance of any equipment either expressly or implicitly. Contact the supplier or contractor for details regarding equipment warranties.

**ENERGY BENEFITS:** The electric utility is entitled to 100% of any possible energy benefits associated with any implemented Energy Conservation Measure, excluding the value of energy cost savings realized by the Customer, but including all rights to all associated energy, capacity, reserves, and emissions. The Customer agrees to provide the electric utility with such further documentation as the electric utility may request to confirm the electric utility's ownership of such benefits.

**USE OF CUSTOMER DATA:** The electric utility agrees that energy data collected is for research purposes only. Any dissemination of the data would be scrubbed of individual identification.
