

Board Approved: November 4, 2020

Effective: Bill Rendered After January 20, 2021

SCHEDULE 2 – FARM AND RURAL RESIDENTIAL – ALL-ELECTRIC

Availability

Available to an occupied residence, including adjacent farm buildings and other farm use, except for crop irrigation, with 50 kVA or less required transformer capacity, located within an area served by Norris Public Power District prior to May 1, 2017, when electric service is measured by one meter. The residence must use electricity exclusively for all normal uses, including water heating and permanently installed space heating equipment equal to the design heating load of the dwelling.

Type of Service

Single-phase, 60 cycles, at available secondary voltages.

<u>Monthly Rate</u>	<u>Summer</u>	<u>Winter</u>
Customer Charge	\$28.00	\$28.00
Energy Charge, per kWh		
First 1,000 kWh	\$.0880	\$.0805
All additional kWh	.0880	.0670

Fuel and Production Cost Adjustment

A fuel and production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to the most recent fuel and production cost adjustment from the District's power supplier plus an adjustment for system energy losses based on the previous calendar years' experience.

Minimum Charge

The minimum monthly charge shall be the greater of \$28.00 or \$1.40 per kVA of required transformer capacity.

Summer and Winter Seasons

The summer rates will apply to customer bills rendered between June 15th and October 15th. The winter rates will apply to the remaining months of the year.

Service Regulation

The District's Service Regulations are incorporated herein as part of this Schedule.
