

Board Approved: November 1, 2017

Effective: Bill Rendered After January 20, 2018

SCHEDULE 9 – OFF-PEAK SERVICE – ALL-ELECTRIC**Availability**

Available to schools and other organizations, excluding industrial or agricultural service, with similar load profiles that typically avoid summer peak demand hours, require transformer capacity of 1,000 KVA or more, located within an area served by Norris Public Power District prior to May 1, 2017, and use electricity exclusively for all normal uses, including electric space conditioning and electric water heating.

Type of Service

Single-phase or three-phase, 60 cycles, at available secondary voltages.

<u>Monthly Rate</u>	<u>Summer</u>	<u>Winter</u>
Demand Charge, per kW of billing demand	\$14.00	\$ 9.14
Energy Charge, per kWh		
First 200 kWh per kW billing demand	\$.0405	\$.0376
Over 200 kWh per kW billing demand	.0325	.0329

Fuel and Production Cost Adjustment

A fuel and production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to the most recent fuel and production cost adjustment from the District's power supplier plus an adjustment for system energy losses based on the previous calendar years' experience.

Minimum Charge

The minimum monthly charge shall be the greater of the following:

1. The minimum charge specified in the contract for service.
2. The demand charge.

Late Charge

A late payment penalty on unpaid balances from the due date until the date upon which the payment is made shall accrue at the rate of 1-1/3% per month or 16% annually.

Summer and Winter Seasons

The summer rates will apply to customer bills rendered between June 15th and October 15th. The winter rates will apply to the remaining months of the year.

Determination of Billing Demand

The maximum kilowatt demand established by the customer for any period of 15 minutes during the month for which the bill is rendered as indicated or recorded by a demand meter.

Municipal Agreement Charge

Where the District has an agreement to pay the municipality a percentage of the customer's retail revenue, such percentage will be added to each customer's bill before application of a fuel and production cost adjustment.

In Lieu of Tax Charge

If a customer resides within the corporate limits of an incorporated town or village, the customer will be charged an additional 5% of the customer's monthly charge plus or minus any fuel and production cost adjustment, since the District is required to remit this amount to the county in which the customer resides.

Service Regulations

The District's Service Regulations are incorporated herein as part of this Schedule.
