Board Approved: November 10, 2026 **Effective: Bill Rendered After January 20, 2027**

SCHEDULE 24 – SUBTRANSMISSION SERVICE

Availability

Available to any subtransmission customer who contracts with Norris for subtransmission service under the terms and conditions of a subtransmission service agreement. Where Norris has provided both the subtransmission line and substation facilities beyond Bus A, the subtransmission line and substation charges will be applicable. If the Customer has provided the subtransmission substation facilities, only the subtransmission line charges will be applicable. If the Customer has provided the subtransmission line facilities, only the subtransmission substation charges will be applicable.

Type of Service

Three-phase, 60 cycles, at standard operating voltages.

Monthly Rate

Subtransmission line charge	$1.29 per kW
Subtransmission substation charge	$0.77 per kW

Determination of Billing Demand

The monthly billing demand shall be the greater of the following:

1. The maximum kilowatt demand, adjusted for losses, established by the customer for any period of 30 consecutive minutes (or, at the District's option, 15 or 60 consecutive minutes) during the month for which the bill is rendered;

2. The maximum kilowatt demand, adjusted for losses, established by the customer during the eleven previous billing months.

Loss Factors

The kilowatt demand shall be measured at Bus A where the first transformation is made from 115 kV to 69 or 34.5 kV. If the demand is measured at a location beyond Bus A, then the measured demand shall be adjusted for transformer and line losses back to Bus A.

Service Regulations

The District's Service Regulations are incorporated herein as part of this Schedule.
