Board Approved: November 10, 2026 **Effective: Bill Rendered After January 20, 2027**

SCHEDULE 26 – BACKUP SUPPLY TO WIND FACILITY

Availability

Available to customers who meet the following criteria:

1. Primary source of power is self-generation from wind energy generation facility.
2. Customer is directly connected to low-side of first transformation below 115 kV or 345 kV (Bus A).

Type of Service

Single-phase or three-phase, 60 cycles at available secondary voltages.

Monthly Rate	Summer	Winter
Customer Charge	$125.00	$125.00
Demand Charge, per kW of billing demand	$ 14.65	$ 9.55
Energy Charge, per kWh	$ .0410	$ .0390

Fuel and Production Cost Adjustment

A fuel or production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to a fuel or production cost adjustment from the District's power supplier including an adjustment for system energy losses.

Minimum Charge

The minimum monthly charge shall be the greater of the following:

1. The minimum charge specified in the contract for service.
2. A charge of $125.

Summer and Winter Seasons

The summer rates will apply to customer bills rendered between June 15th and October 15th. The winter rates will apply to the remaining months of the year.

Municipal Agreement Charge

Where the District has an agreement to pay a municipality a percentage of the customer's retail revenue, such percentage will be added to each customer's bill before application of a fuel or production cost adjustment, for services located within the service territory boundary and for customers served by city or village owned distribution facilities.

Gross Revenue Tax

For services located within the corporate limits of an incorporated town or village, the District is required to collect a 5% gross revenue tax on revenues, including any fuel or production cost adjustment, and remit this amount to the county in which the service is located.

Determination of Billing Demand

The billing demand shall be the greater of the following:

1. The maximum kilowatt demand established by the customer for any period of 15 minutes during the month for which the bill is rendered as indicated or recorded by a demand meter;

2. Sixty percent of the maximum kilowatt demand established by the customer during:

    a. Summer season – Any of the three previous summer billing months
    b. Winter season – Any of the four previous summer billing months

Service Regulations

The District's Service Regulations are incorporated herein as part of this Schedule.
