Board Approved: November 10, 2026 **Effective: Bill Rendered After January 20, 2027**

SCHEDULE 3 – TOWN, VILLAGE, AND COMMUNITY RESIDENTIAL

Availability

Available to a residence, including adjacent buildings not used for commercial purposes, individual apartments and non-commercial or non-industrial services where the service can be supplied from District-owned facilities located in towns, villages, or in platted subdivisions which have a minimum of 10 customers. The electric service will be measured by one meter and the customer's annual peak demand is less than 75 kW.

Type of Service

Single-phase, 60 cycles, at available secondary voltages.

Monthly Rate	Summer	Winter
Customer Charge	$36.00	$36.00
Demand Charge, per kW of billing demand	$ 3.50	$ 3.50
Energy Charge, per kWh	$.0600	$.0445

Determination of Billing Demand

The billing demand shall be the maximum kilowatt demand established by the customer for any period of 15 minutes during the billing period for which the bill is rendered as indicated or recorded by a demand meter.

Determination of Annual Peak Demand

The annual peak demand shall be the maximum kilowatt demand established by the customer for any period of 15 minutes during the 12-month period ending September 30 of each year.

Reclassification of Customers

Between October 1 and December 31 of each year, Norris will calculate the peak demand for each customer for the 12-month period ending September 30. If the customer's peak demand no longer qualifies for its current rate schedule based on the Availability criteria, Norris will reclassify that customer to the appropriate rate schedule. This reclassification will be effective with the first day of the first billing period of the following calendar year.

Fuel and Production Cost Adjustment

A fuel or production cost adjustment may be applied to all energy used in an amount per kWh equal to the increase or decrease in the District's cost due to a fuel or production cost adjustment from the District's power supplier including an adjustment for system energy losses.

Minimum Charge

The minimum charge shall be the customer charge.

Summer and Winter Seasons

The summer rates will apply to customer bills rendered between June 15th and October 15th. The winter rates will apply to the remaining months of the year.

Platted Subdivisions

Platted subdivisions will be reviewed annually on December 31st of each year for application of this rate.

Municipal Agreement Charge

Where the District has an agreement to pay a municipality a percentage of the customer's retail revenue, such percentage will be added to each customer's bill before application of a fuel or production cost adjustment, for services located within the service territory boundary and for customers served by city or village owned distribution facilities.

Gross Revenue Tax

For services located within the corporate limits of an incorporated town or village, the District is required to collect a 5% gross revenue tax on revenues, including any fuel or production cost adjustment, and remit this amount to the county in which the service is located.

Service Regulations

The District's Service Regulations are incorporated herein as part of this Schedule.
